THE UNIQUE
SELF-WASHING,
PROFESSIONAL JUICER
FOR FRUIT AND VEGETABLES
WORLDWIDE

THE COMPANY

My Vitamin Bar is the only company manufacturing professional refrigerators - juicers in Greece with sales all over the world.

From its foundation until today, My Vitamin Bar has been established as one of the largest and most reliable companies in the catering industry specializing in juice making machines. It was the first company to present in the Greek market juicers, juice machines and then the only refrigerator-juicer, with automatic washing, in different dimensions.

The goal of My Vitamin Bar is the absolute satisfaction of the customer / entrepreneur by offering him the possibility of freshly squeezed juices from fruits and vegetables, full of vitamins in just a few seconds with its innovative juicers.

With the **patented HC Tech® technology**, which debuted in the market in 2013, our juicers changed the data in the field of juicing and set the new standards in the global market of fruit and vegs juicers.

My Vitamin Bar juicers offer great innovations and unique benefits, so that a freshly squeezed juice is now produced instantly.

WHY CURRENT JUICERS SIMPLY “DON’T WORK”?

Since their invention in the 1930s, juicers have revolutionized the way we operate our kitchens and produce Healthy - Fresh vegs and fruit juices.

However, since then, their main disadvantage remains and is no other than the Pulp Accumulation!

All juicers, professional or household, cheap or expensive, must be thoroughly cleaned after a few juices as all of them clog from the accumulated fruit and veggie pulp.

That means that you have to disassemble your juicer carefully and very often, taking out all the parts, washing them thoroughly with NOT scalded water avoiding damaging sensitive parts and contacts! This is the main reason why juicers are user unfriendly and end up in our warehouse!

How / Why do we disrupt the juicers' market?

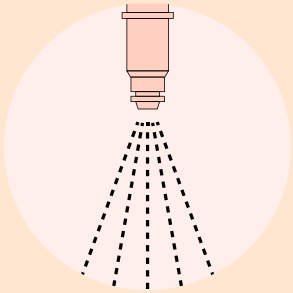

HC Technology

Revolutionary Technology - Imaginative Innovation!

THE TECHNOLOGY

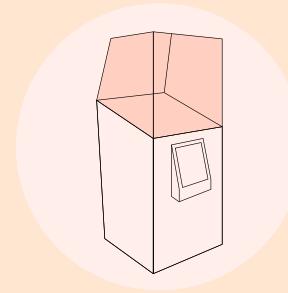

Patented
technology

HC TECH

THE WORLD'S UNIQUE **SELF-WASHING** JUICER

After each juicing of just **7 seconds**, you just press a button and in few seconds all juicer's inner surfaces are washed while clean water runs from the spout avoiding the alteration of the taste of the next juice, eliminating possibility of allergies for the next consumer. Finally, the juicer keeps on juicing all day long.

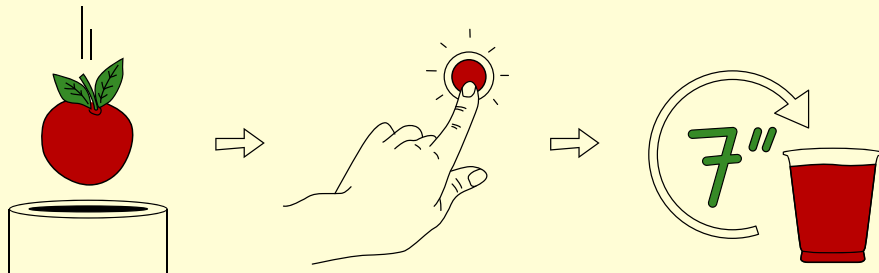

DISPLAY REFRIGERATOR JUICER

Our display refrigerator juicers keep all fruits and veggies cool while the consumer enjoys the juice of his choice, instantly squeezed before his eyes.

UNIQUE ADVANTAGES

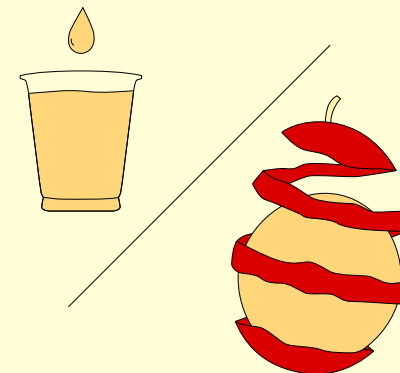

FAST & CONVENIENT

With a press of a button, your juice is ready in just 7" seconds!
After washing the fruits and/or veggies, you throw them into the juicer's tube without cutting or peeling them. Exemptions to the rule are fruits with hard skin (eg orange, pineapple) or large pit (eg peaches) which must be removed.

THE HEALTHIEST JUICE 0% WATER. 0% LOSSES.

During the juicing procedure, all fruits and veggies keep their nutritional value!

WITH AUTOMATIC INTERNAL WASHING SYSTEM

After each juicing, you press a button and the juicer is cleaned in just 10 seconds.
Thanks to our unique HC Technology, you avoid odors, colors and flavors of the previous juice to the next one while any possibility of allergies is avoided.
At the same time, your juicer keeps on juicing all day long!

LOW MAINTENANCE REQUIRED - 10' DAILY

At the end of each working day, the operator removes 4 detachable key parts, washes & dries them by hand and re-assembles them.

ROBUSTNESS. DESIGN.

The use of high quality construction materials (such as titanium, solid surfaces, inox and specially processed crystals, etc.) in combination with their ergonomic design, ensure the high robustness and user friendliness required by today's businesses.

FULLY MODULAR

All mechanical and spare parts of our juicers are easily detachable.

THE PRODUCTS

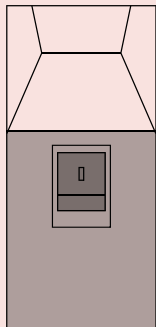

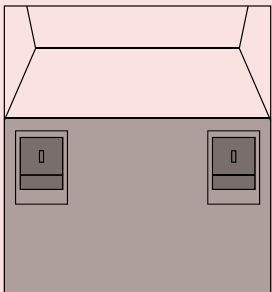

UNIQUE ADVANTAGES FOR DISPLAY REFRIGERATOR JUICERS

Patented
technology

- Easy to install
- Wheeled for greater convenience
- With an Electronic Precision Scale to avoid juice overflow
- Automatic opening/closing door – Covid free.
